

L3 Healthcare
Clinical Research &
Market Development

Rapidly Advance Clinical Trials

Outsource Your Research to L3 Healthcare

A Clinical Research Organization (CRO) Specialized in
In Vitro Diagnostics (IVD) and Medical Device Technology

L3 IS A PROVEN CRO

We have decades of clinical expertise and experience in IVD and medical devices to help guide strategy and efficiently manage clinical programs. You may need full support or help with just a portion of your clinical study. L3 can accommodate your clinical research needs.

CRO SERVICES

Our CRO model, experience and specialization uniquely positions L3 to provide high quality clinical services, with a streamlined approach. We can support your entire clinical trial program, from study concept and protocol to site selection and data analysis, at competitive industry rates.
